Cleaning instructions Care for textiles by vacuuming or lightly brushing. Maintain textiles by keeping them away from direct sunlight. Rotate and flip cushions when vacuuming for even wear. The nap of high pile textiles such as velvets may become crushed or lose its original pile height. We recommend light steaming to lift the pile to its original height. The textile should also be brushed with a de-linting brush to maintain its pile. Water based or solvent cleaner may cause discoloration or staining. We recommend that stained or soiled textiles be professionally cleaned.
