KOKET
 Highly influenced by the European crafts, fashion, flora and fauna, the Mademoiselle Armoire, in polished brass over a silk lining, is designed with a profound admiration and influence of the French decorative arts. This piece has been manufactured in Portugal by a team of master artisans, jewellers and product designers, led by Creative Director Janet Morais' creative eye.

ATELEIR POLYHEDRE
 French ceramics duo Baptiste Ymonet and Vincent Jousseume, partners at Atelier Polyhedre, create tableware and accessories both as limited editions and one-offs. We loved the sharp and edgy design of their Zag carafe.

RU EDITION
 The recently founded company, a collaboration of industrialist Fabrice Millet, cabinet maker Damien Hamon and designer Oliver Papet, follows the same principle: "Design should be at the service of ecology". Their furniture is made from abandoned, recycled timber windows transformed into new. Seen here is their dresser, Le Semainier.
